Director, Creative Research Lab
Montana State University
MSU - College of Arts & Architecture:

- Art
- Architecture
- Music
- MTA (Theatre Arts, Film, Video, Photography)
Education Forum

Developing Collaborations between CRLab and:

- Library
- Technology Center
- Extended University
- Engineering and Construction Management
- Facilities Design Laboratory
- Land Resources and Environmental Science
- History
- Computer Science
- Education
- Business
- The Humanities
- Science, Cell / Plant
- Mathematical Sciences
- Microbiology
- Museum
The Creative Research Lab focus areas:

- Applied Research & Creative Projects
- Multi-disciplinary Collaboration
- Media Literacy
- Sustainable Community Design
- Prototyping in Virtual Environments
In the Virtual Environment, Second Life

2005 ~ 1-12 Universities / Research
2006 ~ 80 Universities / Research
2007 ~ 200+ Universities / Research
2008 ~ 400 Universities / Research
2007:

- NSF announces $50 million program that includes funding for research/education in Virtual Environments.

- MacArthur Foundation launches $50 million program that includes education/philanthropy in Virtual Environments.
What is the CRLab direction?

The CRLab and the Science of Building

Future Buildings
What is the CRLab direction?

The CRLab and the Science of Building:
  Ancient Buildings - Archaeology
  Historic Buildings - Historic Preservation
  Current Buildings - Design
  Future Buildings - Planning
What is the CRLab direction?

For each of these projects, we will be developing, and teaching about Knowledge-based Information Systems that can include IFC standards, Sustainable Design, life-cycle vision, and interoperability.

Our “outreach” will be web-based, oriented to all interest levels, K-12, Higher Ed, Continuing Ed, and professional.

CRLab wishes to collaborate with NIBS to raise awareness and knowledge of IFC, IAI, BIM, while doing applied research on BIM2.0.
After being a visiting lecturer in the CRLab, a leading professor commented that in 30 years, he had never been with students that were so engaged in his presentation..... and that it was like he was in the 21st Century for the first time.
