How to Use the Product Specifications Catalog

This Product Specifications Catalog is the result of ideas and suggestions from consumers, builders, dealers, distributors, remodelers and architects, plus our engineering, sales and marketing departments. Together, we have created a Product Specifications Catalog that goes beyond the normal listing of part numbers. Now you have a catalog which assists you in designing, ordering and installing the cabinetry.

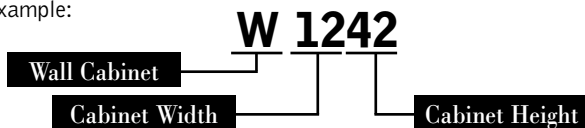

Your comments and suggestions are always welcome. We think that listening to our customers is the best way to provide the support and quality products you deserve.

Thanks for choosing Merillat!

Understanding the cabinetry item numbers

Wall Cabinets

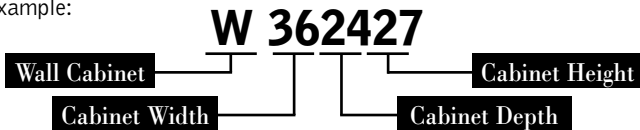

Example:

The wall cabinet width is always listed first and height is always the last two numbers. Thus 12 is the width and 42 is the height.

Since most wall cabinets are 12" deep we only list the cabinet depth when it is not 12" as in the following example.

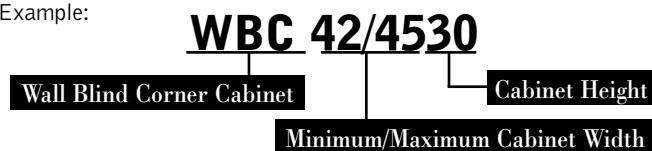

Example:

The depth of the cabinet is 24" and note this number follows the width (36) and precedes the height (27). When the depth is not 12" it will always be the middle two numbers.

There is one other exception to the rule and that involves wall blind corner cabinetry. With blind corner cabinetry, the cabinet can be pulled up to 2⁷/₈" from the corner.

Example:

42 is the width, /45 is the 42" width plus the 3" maximum (2⁷/₈" actual) for pulling the cabinet and 30 is the height.

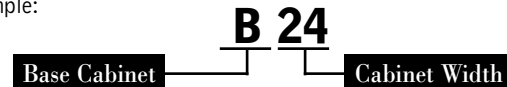

On occasion, a letter will follow the wall or tall cabinet numbers. The only time we use a letter at the end of the item number is for clarification purposes. The letters we use at the end on select wall or tall cabinets are: L (Left Hinging/Left Hand Blind), R (Right Hinging/Right Hand Blind), and MI (Matching Interior).

Note: Tall cabinets follow the same sequence characteristics as wall cabinets; width first followed by height (eg; UC 1884). In those instances where the cabinet depth is greater than 12", the sequence is width, depth, followed by height (eg; UC 182484).

Base Cabinets

Base cabinets are simpler than wall cabinets because the height (34¹/₂" plus 1¹/₂" for the countertop) and the depth (24") are always the same unless otherwise noted. Thus the only numbers you need to know are the width.

Example:

The 24 represents the width.

Just like the wall cabinets, we do on occasion use a letter after the two digit number to further describe the base cabinet: L (Left Hinging/Left Hand Blind/Left Hand Drawer Stack Position), and R (Right Hinging/Right Hand Blind/Right Hand Drawer Stack Position), DT (Double Trays), DDT (Double Deep Trays), FD (Full Depth Shelf), HDS (Half Depth Shelf), ST (Single Tray), and TOST (Tilt-Out Sink Tray).

Bath Cabinets

Bath cabinets are similar to base cabinets. The numbers are used to represent the width. Vanity bowl cabinets are either 31¹/₂" or 34¹/₂" high plus 1¹/₂" for the countertop.

Example:

The letters we use at the end on select vanity cabinets are: L (Left Hinging/Left Hand Drawer Stack Position) and R (Right Hinging/Right Hand Drawer Stack Position).

Check with your local supplier for availability and pricing of our wide array of styles, cabinets and accessories.

Note: In keeping with our policy of continuous product refinement, Masco Builder Cabinet Group reserves the right to change specifications in design and materials as conditions require, or as improvements develop without notice.

Computer Design Software

Twenty-Twenty Notes

Version 6.0 and later: To locate any item within the current catalog, go to the Drop and Drag list. Begin to type the code of the item you are looking for in the Quick Search area. Type one or more letters to list corresponding items in the Drag and Drop list. The more characters you enter, the narrower the selections become. For example, if you type B30, you will get the 30-inch base cabinets. If you type B30H, you narrow the list even more. When you have found the item you are looking for, place it into your design. Proper spacing is important when entering codes to locate items. For example, if you type B30, 20-20 will locate a 30-inch base cabinet. If you type B 30, with a space, 20-20 will not locate the cabinet.

Planit Notes

To locate any item within the current catalog, select the Add Mode button (Plus sign) from the mode toolbar. When the Add Mode side bar appears, select the cabinet button located on the toolbar at the top. If you know the nomenclature for the cabinet you wish to place, you can type the nomenclature in the white box next to Qty in the Add Palette. Do not include any spaces between characters when entering nomenclature. As you type in the nomenclature, notice how the search engine narrows your choices with each additional character typed. The selected cabinet will be highlighted. Click the Add button or the Enter key on your keyboard to add the cabinet. You can further define your search by clicking on the drop down selector below the current catalog button. After placing a cabinet, the cursor will automatically move along the wall to the right-hand end of the cabinet and will be ready to place the next cabinet against the previous one. This makes it easy and quick to add a series of cabinets along a wall.

Framed Door Styles

Traditional Overlay Laminate Raised Panel

A heavy gauge vinyl laminated thermo-pressure formed MDF (Medium Density Fiberboard) door and drawer front, with melamine backing. Doors and drawer fronts have an integrated finger pull. Doors are mounted with concealed nickel-finished self-closing hinges. Decorative hardware is optional.

Interior cabinet color is White.

Arbor Falls II

14 mil vinyl laminate door and drawer front with White or Bisque painted maple cabinet front frame. Backside of door and drawer front is always white melamine.

Arbor Falls II available in:

White vinyl laminate

Bisque: off-white vinyl laminate

Not available with Deluxe Optional Plywood End Panels.

Full Overlay Laminate Raised Panel

A heavy gauge vinyl laminated thermo-pressure formed MDF (Medium Density Fiberboard) door and drawer front, with melamine backing. Wall and vanity cabinet doors are available in square or arch raised panels and feature concealed nickel-finished self-closing hinges. Doors and drawer fronts have a 90° return with no reverse bevel, requiring decorative hardware. **Interior cabinet color is White.**

Whitebay II/Whitebay Arch II

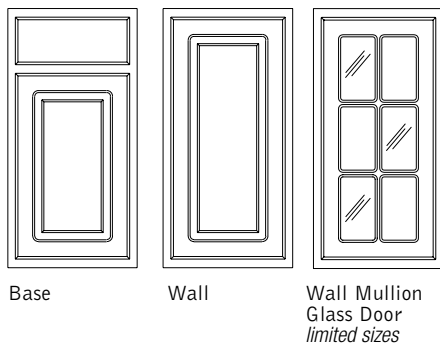

14 mil White vinyl laminate door and drawer front with White painted maple cabinet front frame. Backside of door and drawer front is always white melamine.

Not available with Deluxe Optional Plywood End Panels.

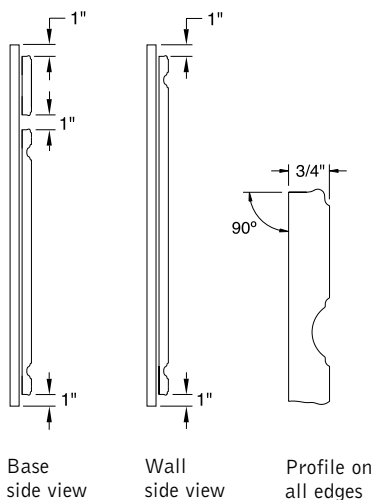

Ashlynn Creek/Ashlynn Creek Arch

14 mil Bisque (off-white) vinyl laminate door and drawer front with Bisque painted maple cabinet front frame. Backside of door and drawer front is always white melamine.

Not available with Deluxe Optional Plywood End Panels.

Cabinet Features

Standard Merillat

Listed below are the features found in the offering of Standard Merillat cabinetry.

1. 3/4" thick moisture- and stain-resistant, easy clean laminated adjustable shelves
2. Clear polycarbonate shelf supports
3. Full-depth 1/2" thick moisture- and stain-resistant, easy clean laminated drawer cores
4. 3/4 extension side-mounted dual-captive roller drawer guide system
5. Single roll-out Trays (ST) behind most base cabinet doors at mid-height position
6. 3/8" thick moisture- and stain-resistant, easy clean laminated end panels
7. M-Guard™, a high performing, moisture- and stain-resistant, easy clean laminated surface with printed wood grain

Merillat Deluxe (DELUX)

Listed below are the features found in the offering of Merillat Deluxe cabinetry.

1. 3/4" thick moisture- and stain-resistant, easy clean laminate adjustable shelves
2. Clear polycarbonate shelf supports
3. **Full-depth 3/4" thick hardwood dovetail drawer cores**
4. **Full-extension concealed under-mount guide system with integrated SoftAction+™ closing mechanism on dovetail drawer cores. Height adjustment in all four corners.**
5. Single roll-out Trays (ST) behind most base cabinet doors at mid-height position
6. 3/8" thick moisture- and stain-resistant, easy clean laminated end panels
7. M-Guard™, a high performing, moisture- and stain-resistant, easy clean laminated surface with printed wood grain

Merillat Deluxe Optional Plywood End Panel (MDP)

Listed below are the features found in the offering of Merillat Deluxe Optional Plywood End Panel.

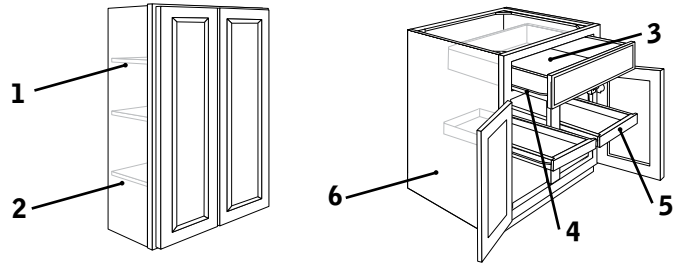

1. 3/4" thick moisture- and stain-resistant, easy clean laminate adjustable shelves
2. Clear polycarbonate shelf supports
3. **Full-depth 3/4" thick hardwood dovetail drawer cores**
4. **Full-extension concealed under-mount guide system with integrated SoftAction+™ closing mechanism on dovetail drawer cores. Height adjustment in all four corners.**
5. Single roll-out Trays (ST) behind most base cabinet doors at mid-height position
6. **3/8" thick matching veneer plywood end panels with moisture- and stain-resistant, easy clean laminate interior surface**
7. M-Guard™, a high performing, moisture- and stain-resistant, easy clean laminated surface with printed wood grain

Installed options available in most Standard Merillat base cabinets

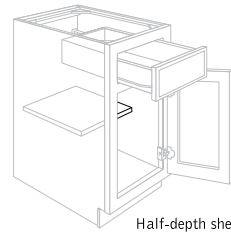

- 3/4" thick **Half-Depth** adjustable **Shelf (HDS)**
- 3/4" thick **Full-Depth** adjustable **Shelf (FDS)**.
Note: FDS Included with cabinet but not installed.
- **Double** (2 behind each door) roll-out **Trays (DT)**
- **Double** (2 behind each door) **Deep** full-depth 1/2" thick hardwood dovetail roll-out **Trays (DDT)** with 3/4 extension side-mount dual-captive roller drawer guide system

Installed options available in most Merillat Deluxe and Merillat Deluxe Optional Plywood End Panel base cabinets

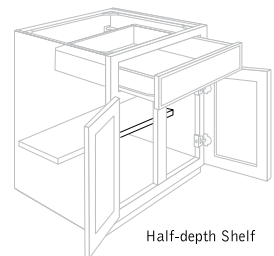

- 3/4" thick **Half-Depth** adjustable **Shelf (HDS)**
- 3/4" thick **Full-Depth** adjustable **Shelf (FDS)**.
Note: FDS Included with cabinet but not installed.
- **Double** (2 behind each door) roll-out **Trays (DT)**
- **Double** (2 behind each door) **Deep** full-depth 1/2" thick hardwood dovetail roll-out **Trays (DDT)** with side-mount dual-captive roller drawer guide system

- Two doors on upper section
- Three full-width standard height drawer openings at bottom
- Includes one full-width standard height drawer
- Order additional drawer(s) if required. See ODK (Oven Drawer Kit)
- 96" high cabinets have two adjustable full-depth shelves in upper section
- 90" high cabinets have one adjustable full-depth shelf in upper section
- 84" high cabinets have no shelf in upper section
- Fixed shelf between upper and center sections
- Center section accommodates single and double ovens by trimming/removing horizontal cross rails
- 3" wide trimmable vertical stiles provide opening width adjustment
- Face frame rails are attached to stiles with screws on the backside for easy removal
- Includes adjustable oven platform with heavy-duty metal mounting brackets and screws which install into pre-drilled end panel holes. Additional platform brackets and screws for second appliance can be purchased separately. See OSP (Oven Shelf Platform).
- 96" high cabinets include a toekick platform shipped unattached for easier handling and installation
- Toekick Cover required on exposed sides of toekick platform for 96" high cabinets
- Face-mounted door hinges are used to provide matching cabinet frame reveals
- See page 90 for oven cutout dimensions
