SP SERIES

Mini

Mini-Stratolume Surface Luminaires

APPLICATION

- Luminous square or round diffusers for comfortable, soft lighting in residences and commercial interiors. Ceiling or wall mount.
- Frameless design for floating appearance. Compliments full size SP Stratolume Luminaires for matching style in the same application.
- Efficient PL, Circline, Double D or Quad light sources.
- All models are American with Disabilities Act (ADA) compliant except for the 19 and 20 inch models.

CONSTRUCTION

- Ultra shallow, die-formed code gauge cold rolled steel housing. Knockouts, holes and key hole slots provided on housing for mounting and electrical connections. Integrated brass lens retainer bushings.
- Fully luminous, translucent white molded .080" (round) and .187" (square) acrylic lens for uniform, low brightness lighting. Decorative white finish, knurled set screws secure diffuser to housing providing tool-free relamping.
- Optional tamperproof hardware.
- Optional polycarbonate diffusers for impact resistance in public facilities.

FINISH

- All metal parts pretreated with a phosphate bonding process and post-painted with an electrostatically-applied high temperature baked white enamel for superior quality and durability.
- Optional non-reflective matte black exterior housing finish available.

ELECTRICAL

- Standard ballast is electronic, HPF, class P, and UL listed for universal voltage.
-  listed and  listed.
- Suitable for damp locations.
- I.B.E.W. labeled.
