

Hi-Flo® ES

Hi-Flo ES

Advantages

- **Lowest initial and average pressure drop to ensure the lowest energy cost in the industry**
- **May be used without a prefilter to further reduce energy costs**
- **Longest lasting pocket style filter available in the industry, less changes and less landfill waste**
- **Proprietary high loft air laid media, exclusive to Camfil Farr, depth optimized for the highest dust holding capacity**
- **Tapered pockets offer Controlled Media Spacing (CMS) for full use of media area**
- **Transport handle built into frame for ease of filter service**
- **Molded plastic frame, no jagged edges, no pocket damage, no air bypass**
- **Guaranteed to 10" w.g. without filter failure**

Description: Multi-pocket high efficiency filters with tapered pleats and pockets available in 12", 22" and 30" depths.

Typical applications: Built-up filter banks, rooftops, split systems, free-standing units, package systems and air handlers.

Efficiency: MERV 11, MERV 13, MERV 14, and MERV 15 and a MERV-A of 11, 13, 14 and 15 respectively, efficiency maintained throughout the life of the filter.

Media: Proprietary microfine glass media in a uniform high loft media blanket with a micro mesh media backing.

Recommended final pressure drop: 1.0" w.g. when operated at 500 fpm. System design may dictate alternative changeout point

Temperature: Maximum continuous operating temperature of 158° F (70° C).

Ratings: ECI value of five stars, listed as UL 900 by Underwriters Laboratories.

See Product Sheet 1211 for more details.

Part Number	Model	Nominal Size (H X W, inches)	Pocket Depth (inches)	Actual Dimensions (H X W X D, inches)	Airflow Capacity (cfm)	Initial Resistance (inches w.g.)	Media Area (sq. ft.)
